

Search Page

This page is designed to search your web pages. However, it is not designed to search the Internet. You can even create a Google search to search through your web pages.

For example:

The Search Page makes it easy to search for a particular classroom, especially if a school district contains 100 schools or more. Instead of navigating through every school to find, for example, Mrs. Clancy's Science Class, you simply type in a search for that name.
